

Gabriel Alonso

Chief Executive Officer, Horizon Wind Energy

Gabriel Alonso is both the Chief Executive Officer of Horizon Wind Energy and Chief Operating Officer for the North American platform of EDP Renewables (EDPR). He also serves on the Executive Committee and the Board of Directors of the American Wind Energy Association (AWEA).

Gabriel has been working in the wind energy industry for over 14 years in several countries in Europe, North America and North Africa. He joined Horizon in July 2007 after Horizon's acquisition by Energias de Portugal, S.A. (EDP), and he has served as Chief Development Officer (CDO) and Chief Operating Officer (COO) for Horizon, responsible for overseeing development, engineering, construction, energy management, procurement and operations and maintenance.

Since he joined Horizon, the company has grown its installed capacity four fold from 800 megawatts (MW) to 3,300 MW spread over 26 wind farms and has consolidated as the third largest wind operator.

Gabriel joined EDP in early 2007 as Managing Director for North America, where he led EDP's entrance into the United States renewables arena through EDP's acquisition of Horizon from Goldman Sachs, the largest renewable energy transaction to date. He was a key member of the initial public offering (IPO) of EDPR in June 2008.

Gabriel holds a law degree and a Master of Science degree in economics, each from the University of Deusto in Spain, and has completed the Advanced Management Program at The University of Chicago Booth School of Business.

Horizon Wind Energy and its subsidiaries develop, construct, own and operate wind farms throughout North America. Based in Houston, Texas, Horizon is owned by EDP Renewables, a global leader in the renewable energy sector that develops, constructs, owns and operates renewable generation facilities. With a sound development pipeline, first class assets and market-leading operating capacity, EDPR has undergone exceptional development in recent years.
