

Steve Irvin

Chief Commercial Officer, Horizon Wind Energy

As Chief Commercial Officer, Steve Irvin leads both the Power Marketing and Origination and Market Operations Departments at Horizon Wind Energy (Horizon). Steve's responsibilities include expanding and maintaining Horizon's customer relationships, overseeing the marketing and negotiation of renewable energy purchase agreements and managing the scheduling and hedging of Horizon's merchant assets.

Previously, Steve was Director of Power Marketing and Origination at Horizon, successfully leading the negotiations of more than 2,000 megawatts (MW) of long term renewable energy purchase agreements and the acquisition of the 400 MW Lone Star Wind Farm in Texas.

Prior to joining Horizon in 2005, Steve served as Vice President at Enron North America, where he worked on settling commodity trading contracts and on the greenfield development, construction and financing of energy assets in Mexico.

Steve received a Bachelor of Science in Mathematics from Vanderbilt University in 1990 and a Master of Business Administration from Thunderbird - The Garvin School of International Management in 1997.

Horizon Wind Energy and its subsidiaries develop, construct, own and operate wind farms throughout North America. Based in Houston, Texas, Horizon is owned by EDP Renewables, a global leader in the renewable energy sector that develops, constructs, owns and operates renewable generation facilities. With a sound development pipeline, first class assets and market-leading operating capacity, EDPR has undergone exceptional development in recent years.
